

THE WORLD BEYOND SILENCE

Twelve Stories – One Crises

SELECTED PRESS QUOTES

"An emotional but above all deeply human film."

Mitteldeutsche Zeitung

***"In a word: Despite the contemporary tendency for escapism,
this film is a blessing!"***

artehock film magazine

***"An impressive document of this period. It does not tell the facets of the disease,
it portrays how people manage not to give up in the most difficult situations."***

***"Those little stories, opulently brought into the picture,
make up a highly appealing film."***

MDR Artour

***"A melancholic and wise motion picture that celebrates life –
most beautifully in the aerial footage of an Iranian shepherd and his herd."***

WDR Cosmo

***"World Beyond Silence evokes a feeling of solidarity.
Its stories are deeply touching but even inspire a deep feeling
of confidence and optimism."***

Kino-zeit.de

***"A film that preserves this strangely enraptured time,
but you should watch it very closely."***

Berliner Morgenpost

***"Perhaps the most interesting film about Covid-19,
as it shows what silence conceals rather than narrating it."***
