2	00:00:22:05	00:00:24:06	02:01	NARRATOR: <i>Germs, bugs, thousands of organisms</i>
3	00:00:24:08	00:00:25:23	01:15	<i>are all around you, all the time.</i>
4	00:00:26:12	00:00:27:23	01:11	<i>That remote control you're holding,</i>
5	00:00:28:08	00:00:29:10	01:02	<i>it's teaming with life,</i>
6	00:00:29:23	00:00:31:23	02:00	<i>bacteria and other organisms.</i>
7	00:00:32:06	00:00:34:08	02:02	Yuck!  NARRATOR: <i>Your microbiome.</i>
8	00:00:35:06	00:00:37:10	02:04	(POP MUSIC PLAYING)
9	00:00:40:23	00:00:42:19	01:20	I have no idea what a microbe is.
10	00:00:42:23	00:00:44:11	01:12	Something small. (LAUGHS)
11	00:00:45:03	00:00:46:03	01:00	It's micro.
12	00:00:50:11	00:00:53:15	03:04	I'm a man with a huge worldview. I'm surrounded by microbes.
13	00:00:53:21	00:00:56:15	02:18	What am I?  You're the helicobacter pylori bacteria.
14	00:01:01:05	00:01:03:09	02:04	I want you to smell yourselves.
15	00:01:04:02	00:01:05:02	01:00	Noses in armpits.
16	00:01:05:04	00:01:08:07	03:03	That is the smell of your microbiome.
17	00:01:08:16	00:01:10:07	01:15	Microbiome?

18	00:01:10:10	00:01:11:20	01:10	Like a hotel for microbes?
19	00:01:11:22	00:01:13:09	01:11	Everybody, head for the colon!
20	00:01:14:19	00:01:16:22	02:03	Then we get to the large intestine!
21	00:01:17:00	00:01:18:06	01:06	MAN: <i>They could be good, they could be bad.</i>
22	00:01:18:22	00:01:20:15	01:17	They're good. And bad.
23	00:01:20:17	00:01:22:17	02:00	It all depends on which one it is.
24	00:01:22:20	00:01:25:00	02:04	Well, young man, the truth is we still don't know
25	00:01:25:02	00:01:26:13	01:11	a lot about the microbiome,
26	00:01:26:22	00:01:28:16	01:18	but you shouldn't let it freak you out.
27	00:01:47:12	00:01:49:13	02:01	(UNLOCKS AND CLOSSES THE DOOR)
28	00:02:01:10	00:02:03:03	01:17	<i>My name is Maria Gloria Dominguez-Bello.</i>  <b><i>Maria Gloria Dominguez-Bello, ok, <a href="https://dbm.rutgers.edu/personnel/maria-gloria-dominguez-bello.html">https://dbm.rutgers.edu/personnel/maria-gloria-dominguez-bello.html</a></i></b>

30	00:02:04:11	00:02:05:16	01:05	<i>People call me Gloria.</i>  <b><i>Gloria, ok, script</i></b>
31	00:02:06:20	00:02:08:03	01:07	<i>I'm a microbiologist.</i>
32	00:02:08:23	00:02:10:20	01:21	<i>And my job is to study microbes,</i>
33	00:02:11:10	00:02:13:23	02:13	<i>the tiny organisms that live inside us.</i>

34	00:02:17:14	00:02:20:19	03:05	<i>People hate germs, another word for microbes.</i>
35	00:02:22:00	00:02:24:09	02:09	<i>But all life evolved from them,</i>
36	00:02:24:23	00:02:26:18	01:19	<i>and most are actually good for us.</i>
37	00:02:28:10	00:02:32:04	03:18	<i>We call the ones living inside us, our microbiome,</i>
38	00:02:32:22	00:02:35:21	02:23	<i>a collection of bacteria, viruses and fungi.</i>
39	00:02:40:00	00:02:43:10	03:10	<i>They are involved in almost everything our bodies do.</i>
40	00:02:45:18	00:02:48:22	03:04	<i>Microbes help us digest food and make vitamins.</i>
41	00:02:53:16	00:02:57:04	03:12	<i>They train the immune system to protect us against invaders.</i>
42	00:03:01:12	00:03:03:19	02:07	<i>They also determine, to some extent,</i>
43	00:03:03:21	00:03:06:18	02:21	<i>our response to pain and our mood.</i>
44	00:03:11:00	00:03:14:15	03:15	<i>These discoveries have started a scientific revolution.</i>
45	00:03:16:07	00:03:19:07	03:00	<i>But just as we are learning how important they are,</i>
46	00:03:20:06	00:03:22:08	02:02	<i>our microbes are disappearing.</i>
47	00:03:25:19	00:03:27:18	01:23	BLASER: We have lost maybe as much as 50 percent  <b><i>Martin, ok, script</i></b>
48	00:03:27:23	00:03:30:02	02:03	of our internal biodiversity
49	00:03:30:14	00:03:32:04	01:14	and this has consequences.
50	00:03:33:10	00:03:34:15	01:05	<i>My name is Martin Blaser.</i>

53	00:03:38:16	00:03:39:16	01:00	Can I get a paperback? Yeah.
54	00:03:40:18	00:03:42:02	01:08	BLASER: <i>Over these last 20 years,</i>
55	00:03:42:04	00:03:43:09	01:05	I've been thinking about this idea
56	00:03:43:11	00:03:46:21	03:10	which I call "the theory of disappearing microbiota."
57	00:03:47:11	00:03:50:01	02:14	I wrote <i>Missing Microbes</i> to sound an alarm.  <b><i>Missing Microbes, ok, <a href="https://www.goodreads.com/en/book/show/17910121-missing-microbes">https://www.goodreads.com/en/book/show/17910121-missing-microbes</a></i></b>

61	00:03:58:04	00:03:59:04	01:00	(CHUCKLES)
62	00:03:59:08	00:04:00:15	01:07	(AUDIENCE LAUGHS)
63	00:04:02:13	00:04:04:16	02:03	BLASER: <i>What's happening to our internal ecology</i>
64	00:04:04:21	00:04:07:21	03:00	<i>is very similar to what's happening to our climate.</i>
65	00:04:08:17	00:04:11:18	03:01	<i>But unfortunately, this is happening even faster.</i>

66	00:04:14:02	00:04:17:02	03:00	<i>For decades now, we have seen many diseases rising,</i>
67	00:04:18:08	00:04:21:05	02:21	<i>and it's happening just as we are losing our microbes.</i>
68	00:04:23:06	00:04:26:20	03:14	MAN 1: <i>Nearly 26 million people in the U.S. are living with diabetes.</i>  <b><i>U.S., ok,</i></b> <b><i><a href="https://www.britannica.com/place/United-States">https://www.britannica.com/place/United-States</a></i></b>

70	00:04:29:19	00:04:31:17	01:22	Asthma rates rising dramatically.

72	00:04:40:01	00:04:41:22	01:21	BLASER: <i>We're in the middle of an extinction crisis.</i>
73	00:04:43:02	00:04:45:07	02:05	<i>It's invisible, it's deadly,</i>
74	00:04:46:11	00:04:48:12	02:01	<i>and it's happening in all of us right now.</i>
75	00:05:01:14	00:05:04:07	02:17	<i>People have been worried about disease since the beginning of time.</i>
76	00:05:12:18	00:05:14:18	02:00	(WATER FLOWS)
77	00:05:15:08	00:05:18:11	03:03	<i>One of the most important advances in human health</i>
78	00:05:18:16	00:05:19:20	01:04	<i>is having clean water.</i>
79	00:05:22:06	00:05:24:04	01:22	<i>And that has been amazing,</i>
80	00:05:24:06	00:05:26:12	02:06	<i>because we have less typhoid fever,</i>
81	00:05:26:14	00:05:27:18	01:04	<i>we have less cholera...</i>

82	00:05:28:19	00:05:30:14	01:19	Many other infections.
83	00:05:32:10	00:05:35:13	03:03	<i>It was part of a revolution that started about 200 years ago.</i>
84	00:05:35:23	00:05:40:06	04:07	<i>Scientists like Pasteur discovered that many diseases are caused by germs.</i>  <b>Pasteur, ok,</b> <b><a href="https://www.britannica.com/biography/Louis-Pasteur">https://www.britannica.com/biography/Louis-Pasteur</a></b>
85	00:05:41:07	00:05:42:17	01:10	<i>That was a tremendous breakthrough.</i>
86	00:05:46:05	00:05:48:08	02:03	<i>We found ways that we could fight these germs</i>
87	00:05:48:15	00:05:50:12	01:21	<i>through sanitation, vaccines,</i>
88	00:05:50:18	00:05:52:08	01:14	<i>and through antibiotics.</i>
89	00:05:52:19	00:05:55:14	02:19	<i>And those were remarkable victories.</i>
90	00:05:56:03	00:05:59:04	03:01	<i>Instead of knowing that if you had five children,</i>
91	00:05:59:13	00:06:01:07	01:18	<i>two of them were going to die in childhood,</i>
92	00:06:01:16	00:06:04:12	02:20	<i>uh, you had the chance that all your children were going to survive.</i>
93	00:06:05:04	00:06:06:09	01:05	I went down to the library to
94	00:06:06:15	00:06:09:00	02:09	find out something else about this field of antibiotics.

120	00:08:02:16	00:08:05:09	02:17	<i>And we take that responsibility very seriously,</i>
121	00:08:06:04	00:08:09:07	03:03	<i>because we are aware of the history of exploitation.</i>

143	00:09:21:16	00:09:22:17	01:01	GLORIA: <i>...sometimes they laugh,</i>

145	00:09:27:15	00:09:29:02	01:11	And we say, "Yes."
146	00:09:30:21	00:09:35:06	04:09	<i>Because your poop contains trillions of tiny organisms</i>
147	00:09:36:03	00:09:38:01	01:22	<i>that may help us find the answers</i>
148	00:09:38:10	00:09:41:07	02:21	to some of the world's biggest health problems.
149	00:09:44:08	00:09:46:04	01:20	<i>This is also important for them,</i>

273	00:16:42:07	00:16:43:09	01:02	<i>Significantly more.</i>
274	00:16:43:21	00:16:46:20	02:23	<i>And to me, these numbers are not just a coincidence.</i>
275	00:16:47:23	00:16:51:05	03:06	<i>Diabetes is a disease in which there's too much sugar in the blood.</i>
276	00:16:51:15	00:16:53:17	02:02	<i>And a lot of that has to do with obesity.</i>

277	00:16:54:08	00:16:56:14	02:06	<i>In societies, whenever there's more obesity,</i>

325	00:19:04:04	00:19:06:16	02:12	<i>BLASER: To understand my ideas about what happened to Genia,</i>
326	00:19:06:19	00:19:09:16	02:21	<i>we have to go back years before she ever went to Peru.</i>
327	00:19:10:13	00:19:13:05	02:16	<i>When she was a young girl, she had many ear infections.</i>
328	00:19:13:15	00:19:16:09	02:18	<i>And like millions of parents, we took her to the doctor,</i>
329	00:19:16:21	00:19:19:16	02:19	<i>and each time, the doctor prescribed antibiotics.</i>
330	00:19:21:16	00:19:23:15	01:23	And to me, that combination
331	00:19:23:17	00:19:25:20	02:03	of those early childhood antibiotics
332	00:19:26:04	00:19:27:14	01:10	and those later antibiotics,
333	00:19:28:05	00:19:30:18	02:13	that's kind of what led you to this problem,
334	00:19:31:03	00:19:32:22	01:19	which, of course, I feel terrible about.
335	00:19:34:10	00:19:36:11	02:01	<i>Early life, that's when they're developing.</i>
336	00:19:37:05	00:19:38:12	01:07	<i>They're developing their immunity.</i>
337	00:19:38:22	00:19:40:08	01:10	<i>They're developing their metabolism.</i>
338	00:19:40:17	00:19:42:08	01:15	They're developing their brain function.
339	00:19:43:05	00:19:44:09	01:04	That's the critical time.

340	00:19:44:11	00:19:46:21	02:10	And that's the time when kids are getting the most antibiotics.
341	00:19:47:21	00:19:49:18	01:21	You know, we thought we were doing you a favor.
342	00:19:50:07	00:19:52:04	01:21	Uh, I remember thinking,
343	00:19:52:17	00:19:55:19	03:02	you know, we put you on antibiotics, you wouldn't have to have tubes in your ears.
344	00:19:56:03	00:19:57:22	01:19	But in retrospect, it would have been better.
345	00:19:58:12	00:19:59:12	01:00	But we didn't know it.
346	00:20:00:20	00:20:04:07	03:11	<i>There's a conversation going on between our microbes and our immune system,</i>
347	00:20:04:20	00:20:06:04	01:08	<i>especially in young children,</i>
348	00:20:06:23	00:20:08:22	01:23	<i>where the microbes train the immune system</i>
349	00:20:09:10	00:20:11:03	01:17	<i>to distinguish friend from foe.</i>
350	00:20:13:00	00:20:15:15	02:15	<i>We believe that antibiotics disrupt that communication.</i>
351	00:20:17:02	00:20:21:15	04:13	<i>And that's what opened the door to Janye developing celiac disease later in life.</i>
352	00:20:24:07	00:20:27:15	03:08	And then I remember that I hated taking antibiotics.
353	00:20:27:22	00:20:30:18	02:20	And you and Mom basically bribed me
354	00:20:31:05	00:20:34:12	03:07	that if I would take it without complaining for, like, a week or so,
355	00:20:34:14	00:20:35:14	01:00	I could get my ears pierced.

356	00:20:35:20	00:20:38:21	03:01	Bribing you to take your antibiotic, uh...
357	00:20:40:12	00:20:42:17	02:05	I know. Mom apologized to me for it.

361	00:20:52:00	00:20:54:17	02:17	<i>And for kids in the United States, by the time they're two,</i>
362	00:20:55:02	00:20:57:17	02:15	<i>they've had, on average, about three courses of antibiotics.</i>
363	00:20:58:18	00:20:59:22	01:04	<i>By the time they're ten,</i>
364	00:21:00:08	00:21:01:23	01:15	<i>about ten courses of antibiotics.</i>
365	00:21:03:17	00:21:06:16	02:23	<i>So, many of these chronic diseases began in childhood.</i>
366	00:21:07:20	00:21:09:22	02:02	<i>That's why it's become a focus of our work.</i>
367	00:21:10:18	00:21:15:07	04:13	<i>But an out-of-balance microbiome can have repercussions at any point in life.</i>
368	00:21:18:23	00:21:21:09	02:10	Theresa NORTH PROVIDENCE, RHODE ISLAND
369	00:21:21:11	00:21:25:09	03:22	<b>THERESA:</b> <i>In 2010, I ended up getting C.diff,</i>
370	00:21:26:18	00:21:28:01	01:07	and it was horrible.
371	00:21:29:06	00:21:32:10	03:04	C. difficile is a bacteria that is resistant to

				most antibiotics.
372	00:21:32:23	00:21:35:19	02:20	And some experts say, overprescribing the medications
373	00:21:35:22	00:21:38:21	02:23	is causing the bacteria to become even more deadly.
374	00:21:39:15	00:21:40:16	01:01	MALE REPORTER: <i>It's called C. diff.</i>
375	00:21:41:04	00:21:43:04	02:00	<i>500,000 Americans have it in their bodies</i>
376	00:21:43:07	00:21:45:18	02:11	<i>15,000 people die from it every year.</i>
377	00:21:47:04	00:21:51:07	04:03	I was constantly sick, um... I would be afraid to eat,
378	00:21:51:09	00:21:55:06	03:21	because anything I would eat would just come right out. Um...
379	00:21:56:02	00:21:59:04	03:02	So it would limit what I wanted to do, where I would go.
380	00:22:00:12	00:22:01:22	01:10	<i>I was very, very fatigued.</i>
381	00:22:04:15	00:22:08:20	04:05	<i>I ended up going to, uh, a G.I. specialist out here in Rhode Island.</i>
382	00:22:10:19	00:22:15:18	04:23	And she said that she was starting to do these, uh, fecal transplants.
383	00:22:16:15	00:22:20:00	03:09	BLASER: <i>FMT stands for Fecal Microbiota Transplant.</i>
384	00:22:21:08	00:22:24:06	02:22	<i>It means taking the microbes from someone who's healthy</i>
385	00:22:24:16	00:22:27:00	02:08	<i>and transferring them over to someone who's sick.</i>
386	00:22:28:10	00:22:32:00	03:14	<i>Right now, the only way to do this is by using their poop.</i>

387	00:22:33:23	00:22:38:09	04:10	The idea that giving somebody poop could cure their illness is a pretty amazing thought.
388	00:22:41:09	00:22:44:06	02:21	<i>But more than half of poop is actually living microbes.</i>
389	00:22:46:04	00:22:49:17	03:13	<i>So fecal transplant provides the patient a wide range of microbes</i>
390	00:22:50:03	00:22:52:08	02:05	<i>intended to restore balance in the gut,</i>
391	00:22:52:23	00:22:54:21	01:22	<i>and to cure the C.diff infection.</i>
392	00:22:57:14	00:22:59:03	01:13	THERESA: <i>I used my daughter as the donor.</i>
393	00:22:59:05	00:23:00:08	01:03	Tatyana THERESA'S DAUGHTER
394	00:23:00:12	00:23:03:02	02:14	She was 15. "Ew! Mom, ew!"
395	00:23:04:06	00:23:06:04	01:22	<i>The day of the procedure, I was so afraid</i>
396	00:23:06:06	00:23:07:21	01:15	<i>she wouldn't be able to use the bathroom.</i>
397	00:23:08:06	00:23:10:17	02:11	<i>So I, like, loaded her up with milk of magnesia.</i>
398	00:23:11:12	00:23:14:01	02:13	So she came home from school, right, and she's like,
399	00:23:14:06	00:23:20:20	06:14	"Mom, I was in the bathroom all day." So she was not happy.
400	00:23:22:11	00:23:25:04	02:17	And then I would go in and I would do a, kinda like a colonoscopy.
401	00:23:25:13	00:23:27:12	01:23	<i>So they would liquefy the feces</i>
402	00:23:28:03	00:23:30:01	01:22	and go up through, you know, the anus

403	00:23:30:03	00:23:31:16	01:13	and into the intestinal tract,
404	00:23:31:21	00:23:34:13	02:16	<i>and, kinda just, with a syringe, push all that fluid in.</i>
405	00:23:36:10	00:23:39:19	03:09	And, like this, it was instant relief.
406	00:23:42:01	00:23:44:11	02:10	BLASER: <i>FMT is a complex mixture.</i>
407	00:23:44:13	00:23:46:20	02:07	<i>And we don't even know what all the components are.</i>
408	00:23:47:12	00:23:50:21	03:09	<i>It's FDA approved only to treat C.diff infections.</i>
409	00:23:51:00	00:23:53:04	02:04	<i>But for that, it's very effective.</i>
410	00:23:54:10	00:23:57:11	03:01	The benefit of it is much greater than the risk.
411	00:23:58:14	00:23:59:21	01:07	MAN: Hi, honey.  Hi, babe.
412	00:24:00:00	00:24:01:01	01:01	Roger THERESA'S HUSBAND
413	00:24:01:03	00:24:02:12	01:09	Muah!  (CHUCKLES)
414	00:24:04:23	00:24:07:08	02:09	Honey, you didn't have to do this on your day off.
415	00:24:08:20	00:24:10:04	01:08	Oh, I love it.
416	00:24:11:17	00:24:17:01	05:08	About six months after I had the procedure I started noticing a weight gain.
417	00:24:17:23	00:24:21:03	03:04	So this one here was 2005.

418	00:24:21:22	00:24:25:17	03:19	And then, this one was me in 2006.
419	00:24:26:12	00:24:28:13	02:01	That's the best one.  Yeah, that's his favorite.
420	00:24:29:08	00:24:32:01	02:17	So this is me, literally,
421	00:24:32:12	00:24:35:02	02:14	like, right before the, uh, FMT.
422	00:24:35:12	00:24:39:01	03:13	And then, this is me, it was, like, six months later.
423	00:24:40:05	00:24:43:19	03:14	<i>So I went from being 120 pounds, like, my whole life</i>
424	00:24:44:13	00:24:46:22	02:09	<i>to, at my highest, I was 183.</i>
425	00:24:47:00	00:24:50:01	03:01	<i>So I put on 60 pounds within, like, a year.</i>
426	00:24:50:18	00:24:52:22	02:04	<i>And nothing had changed in my life, so,</i>
427	00:24:53:06	00:24:57:04	03:22	<i>for me, I'm like, why was this increase and weight gain happening?</i>
428	00:24:59:00	00:25:01:09	02:09	The only thing that made sense to me was,
429	00:25:02:03	00:25:04:02	01:23	the FMT procedure caused it.
430	00:25:06:12	00:25:08:11	01:23	Okay. More mice.
431	00:25:10:12	00:25:11:22	01:10	BLASER: <i>We did another experiment</i>
432	00:25:12:00	00:25:14:18	02:18	<i>where we took mice that we made fat with antibiotics</i>
433	00:25:15:14	00:25:19:04	03:14	<i>and we gave their microbes</i>

				<i>to mice that had no microbes of their own.</i>
434	00:25:20:13	00:25:22:08	01:19	<i>And those mice got fat, too.</i>
435	00:25:23:22	00:25:27:03	03:05	<i>And that showed us that the altered microbes were causing the weight gain.</i>
436	00:25:28:11	00:25:31:23	03:12	My daughter, um, she is obese.
437	00:25:32:09	00:25:35:16	03:07	Um, she's shaped, we're shaped just like each other, you know, round.
438	00:25:36:13	00:25:40:13	04:00	<i>Um, so looking at my daughter's body and my body</i>
439	00:25:41:02	00:25:43:01	01:23	<i>had to have been from the FMT.</i>
440	00:25:44:01	00:25:45:06	01:05	How was school?
441	00:25:46:02	00:25:48:12	02:10	Where's my love? Gimme my love.
442	00:25:49:09	00:25:53:02	03:17	<i>I've done Weight Watchers. I did a liquid diet</i>
443	00:25:53:04	00:25:56:23	03:19	<i>that's done through Miriam Hospital so it's, like, medically done with doctors.</i>  <b><i>Miriam Hospital ok, <a href="https://www.lifespan.org/locations/miriam-hospital">https://www.lifespan.org/locations/miriam-hospital</a></i></b>
444	00:25:57:13	00:25:59:09	01:20	<i>I've tried so many diets.</i>
445	00:26:00:03	00:26:01:16	01:13	I'm active, um...
446	00:26:04:01	00:26:08:08	04:07	I don't, you know, binge eat. So for me, it's frustrating
447	00:26:08:10	00:26:11:01	02:15	when I'm doing everything I can to try to lose the weight,

448	00:26:11:03	00:26:12:22	01:19	and I still can't lose the weight.
449	00:26:18:23	00:26:22:12	03:13	ERAN SEGAL: Several years ago, the first project that we did was on artificial sweeteners.
450	00:26:22:14	00:26:24:04	01:14	And, uh, to make a long story short, what we showed
451	00:26:24:06	00:26:25:06	01:00	Eran Segal, PhD
452	00:26:25:08	00:26:26:11	01:03	COMPUTATIONAL BIOLOGIST WEIZMANN INSTITUTE OF SCIENCE
453	00:26:26:13	00:26:27:21	01:08	is that consumption of artificial sweeteners
454	00:26:28:02	00:26:30:22	02:20	can alter the microbiome in a detrimental way.
455	00:26:31:10	00:26:36:00	04:14	That's the big massive weld...  Uh-huh. Oh, okay.
456	00:26:36:10	00:26:38:12	02:02	BLASER: <i>So, microbiome and diet.</i> SEGAL: <i>Yeah.</i>
457	00:26:38:20	00:26:41:01	02:05	How did you first get involved in this field?
458	00:26:41:04	00:26:45:04	04:00	I got into reading about diet for marathon running.
459	00:26:46:00	00:26:50:03	04:03	<i>And then, I realized that a lot of the things that people tell us</i>
460	00:26:50:05	00:26:53:12	03:07	<i>you should eat for training have no scientific basis.</i>
461	00:26:54:15	00:26:57:20	03:05	RAMATH HASHARON, ISRAEL
462	00:27:02:22	00:27:04:18	01:20	<i>When I started reading about nutrition</i>

463	00:27:04:20	00:27:07:20	03:00	<i>and thinking about differences between people, I realized</i>
464	00:27:07:22	00:27:11:08	03:10	<i>that everything you put in your body has an effect on your gut bacteria.</i>
465	00:27:13:04	00:27:15:23	02:19	<i>And that our gut bacteria may really have a dominant role</i>
466	00:27:16:01	00:27:17:18	01:17	<i>in all these big questions I was asking.</i>
467	00:27:19:06	00:27:20:20	01:14	<i>like why some of us become obese,</i>
468	00:27:20:22	00:27:23:12	02:14	<i>or develop diabetes, while others don't.</i>
469	00:27:33:15	00:27:34:18	01:03	Eran Elinav, MD MICROBIOLOGIST & IMMUNOLOGIST
470	00:27:34:20	00:27:36:19	01:23	ELINAV: <i>I was performing colonoscopies and endoscopies, you know,</i>
471	00:27:36:21	00:27:38:13	01:16	<i>every day of the week.</i>
472	00:27:39:07	00:27:42:11	03:04	I was meeting the microbiome on a daily basis.
473	00:27:42:13	00:27:45:19	03:06	But at that time, we all thought that this was a waste product.
474	00:27:45:22	00:27:48:14	02:16	That it was just something that we had to live with,
475	00:27:48:16	00:27:52:09	03:17	but was not really important to our physiology, or to our health.
476	00:27:54:03	00:27:55:07	01:04	(SPEAKS INDISTINCTLY)
477	00:27:55:21	00:28:01:00	05:03	<i>But as we matured as a field, we realized that the functions</i>
478	00:28:01:02	00:28:03:13	02:11	<i>these microbes provide are important.</i>

479	00:28:04:19	00:28:07:19	03:00	<i>And this... this was a conceptual change in the field.</i>
480	00:28:09:16	00:28:13:13	03:21	You know, I do microbiome research while my wife
481	00:28:13:15	00:28:15:20	02:05	is, um, an infectious disease specialist.
482	00:28:16:02	00:28:20:11	04:09	<i>Uh, so there are many discussions over dinner related to human excretions</i>
483	00:28:20:13	00:28:24:02	03:13	that are not entirely you know, uh, proper.
484	00:28:24:11	00:28:26:16	02:05	I brought you a new sample for the study.
485	00:28:27:02	00:28:30:16	03:14	ELINAV: <i>In many cases, my kids tell me, "We don't want to hear</i>
486	00:28:30:18	00:28:33:14	02:20	"any more about your work, your science, and about poop."
487	00:28:36:19	00:28:41:21	05:02	We thought that working together, it could lead to something very fruitful.
488	00:28:42:05	00:28:44:17	02:12	(VENDOR SHOUTING)
489	00:28:44:19	00:28:47:08	02:13	ELINAV: <i>The first idea was related to nutrition.</i>
490	00:28:48:02	00:28:50:19	02:17	I often met patients suffering of obesity,
491	00:28:50:21	00:28:52:07	01:10	of Type 2 diabetes.
492	00:28:53:13	00:28:56:13	03:00	<i>I always gave the Gold Standard Recommendations,</i>
493	00:28:57:04	00:29:00:00	02:20	<i>the American Heart Association, American Diabetes Association</i>

				<i>diet.</i>
494	00:29:00:15	00:29:02:22	02:07	<i>But the nutritional recommendations, in reality,</i>
495	00:29:03:10	00:29:06:04	02:18	<i>never really worked for most of these individuals.</i>
496	00:29:07:22	00:29:11:11	03:13	<i>SEGAL: We began to wonder if these diets failed, because they were ignoring</i>
497	00:29:11:13	00:29:14:14	03:01	<i>the role gut microbes play in how we digest our food.</i>
498	00:29:16:02	00:29:18:20	02:18	<i>And how every person has different microbes inside them.</i>
499	00:29:22:11	00:29:26:07	03:20	<i>ELINAV: We'd asked 1,000 individuals to give us a week of his or her life.</i>
500	00:29:27:12	00:29:29:15	02:03	<i>We collected lots of information.</i>
501	00:29:31:01	00:29:32:08	01:07	<i>Are you sure you want that arm?</i>
502	00:29:32:15	00:29:33:21	01:06	<i>(IN ENGLISH) They were giving us blood tests</i>
503	00:29:33:23	00:29:35:18	01:19	<i>in which we measured many different parameters.</i>
504	00:29:37:13	00:29:41:06	03:17	<i>SEGAL: For dozens of different small and large meals, you log everything that you eat.</i>
505	00:29:42:12	00:29:44:20	02:08	<i>ELINAV: And we took stool samples from each of these individuals</i>
506	00:29:44:22	00:29:47:12	02:14	<i>in order to characterize their gut microbes.</i>
507	00:29:48:05	00:29:51:00	02:19	<i>Their composition, their function,</i>
508	00:29:51:08	00:29:53:16	02:08	<i>their genomic content and many other features.</i>

509	00:29:55:01	00:29:56:14	01:13	Hi. What's this?
510	00:29:57:10	00:29:58:10	01:00	SEGAL: (IN ENGLISH) <i>Crunching all this data,</i>
511	00:29:58:12	00:30:01:05	02:17	<i>we created a program that could identify</i>
512	00:30:01:07	00:30:04:09	03:02	<i>which foods made each person's blood sugar levels rise</i>
513	00:30:04:17	00:30:06:10	01:17	<i>and which brought them back to normal.</i>
514	00:30:08:08	00:30:10:19	02:11	<i>We also learned that the way foods are paired</i>
515	00:30:10:22	00:30:13:03	02:05	<i>is very important for avoiding sugar spikes.</i>
516	00:30:13:23	00:30:16:07	02:08	<i>For instance, bread may be bad for someone,</i>
517	00:30:16:10	00:30:18:06	01:20	<i>but not when they combine it with butter.</i>
518	00:30:18:22	00:30:22:21	03:23	<i>Or an apple may cause sugar spikes, but not when they eat it with walnuts.</i>
519	00:30:24:23	00:30:27:16	02:17	<i>We then designed personalized diets for participants</i>
520	00:30:27:18	00:30:30:03	02:09	<i>with pre diabetes based on their gut microbes.</i>
521	00:30:31:14	00:30:34:04	02:14	And the results were actually quite remarkable.
522	00:30:34:08	00:30:36:13	02:05	We were able, for almost all of these participants,
523	00:30:36:15	00:30:39:05	02:14	to fully normalize to perfectly healthy
524	00:30:39:10	00:30:40:17	01:07	<i>their blood glucose levels.</i>
525	00:30:41:09	00:30:42:20	01:11	<i>And as a happy side effect,</i>

526	00:30:43:07	00:30:46:20	03:13	<i>They also lost about 10 pounds on average over six months.</i>
527	00:30:48:11	00:30:51:07	02:20	<i>And when we analyzed the changes in the gut bacteria,</i>
528	00:30:51:20	00:30:55:19	03:23	<i>we were able to detect shifts in the microbiome following these dietary interventions.</i>
529	00:30:56:21	00:31:00:06	03:09	<i>Bacteria associated with diabetes tended,</i>
530	00:31:00:12	00:31:03:14	03:02	on average, to go down in their levels. In most participants.
531	00:31:04:17	00:31:09:08	04:15	<i>Perhaps their gut bacteria may be changing to a more beneficial composition.</i>
532	00:31:10:08	00:31:14:00	03:16	That, of course, uh, needs to be verified in longer term trials,
533	00:31:14:02	00:31:15:20	01:18	which we are actually engaged in today.
534	00:31:17:19	00:31:21:13	03:18	And now we have a great opportunity to pinpoint which are the bacteria
535	00:31:21:15	00:31:25:02	03:11	inside this huge neighborhood of bacteria that resides within us
536	00:31:25:07	00:31:27:07	02:00	that are actually doing the good stuff.
537	00:31:28:15	00:31:33:14	04:23	<i>And this, in the future, could actually mean that we may have a capability</i>
538	00:31:33:21	00:31:38:08	04:11	<i>in complimenting the dietary approach with next generation probiotics</i>
539	00:31:38:20	00:31:41:20	03:00	that are actually able to drive
540	00:31:42:01	00:31:44:23	02:22	normalizing blood sugar levels

				and even reducing weight.
541	00:31:46:10	00:31:49:02	02:16	That's an important goal, because many of the probiotics
542	00:31:49:04	00:31:53:12	04:08	that are actually in use today haven't really been vetted by science.
543	00:31:54:10	00:31:58:02	03:16	<i>Some people experience real benefits, but most are untested.</i>
544	00:31:59:09	00:32:03:06	03:21	What Eran Elinav calls next generation probiotics,  <b><i>Eran ... = Please check</i></b>
545	00:32:03:08	00:32:05:04	01:20	<i>I call targeted probiotics.</i>
546	00:32:05:10	00:32:09:19	04:09	<i>The idea that we could use specific bacteria for specific purposes.</i>
547	00:32:10:15	00:32:13:20	03:05	<i>Such bacteria could provide answers for other health issues</i>
548	00:32:13:23	00:32:16:19	02:20	<i>that currently don't have great treatment options.</i>

555	00:32:50:19	00:32:52:09	01:14	And his face almost completely swelled up.

557	00:32:53:14	00:32:55:00	01:10	His eyes swelled shut.
558	00:32:55:04	00:32:57:18	02:14	He would have tears rolling down his eyes.
559	00:32:57:20	00:32:59:11	01:15	But that was before we knew
560	00:33:00:09	00:33:01:20	01:11	<i>that he was a truly allergic kid.</i>
561	00:33:03:14	00:33:09:05	05:15	Nuts, milk, wheat, soy, sesame... Pretty much, like, everything it feels like.

563	00:33:12:11	00:33:16:20	04:09	And, like, feels really bad and then your body starts getting all lumpy

565	00:33:20:02	00:33:22:09	02:07	It's not very not a good, pretty sight at all.

572	00:33:43:00	00:33:44:01	01:01	Um...
573	00:33:44:12	00:33:46:14	02:02	<i>He was about five or six.</i>
574	00:33:47:08	00:33:48:12	01:04	<i>And he was crying.</i>
575	00:33:48:23	00:33:51:22	02:23	And you can just, kind of, see this light bulb go off in his head.
576	00:33:52:05	00:33:56:05	04:00	And he said, um, "You know, I'm never going to get better.
577	00:33:56:10	00:33:59:08	02:22	"Like, this is how I am, and it's never going to get better.
578	00:33:59:10	00:34:02:19	03:09	"I'm never going to be like, like everybody else."
579	00:34:03:00	00:34:05:01	02:01	And, um, he was just crying and he said, you know,
580	00:34:05:05	00:34:07:12	02:07	"Why... Why did God do this to me?"
581	00:34:11:12	00:34:13:05	01:17	<i>There was nothing. There was nothing for him.</i>
582	00:34:13:07	00:34:16:04	02:21	<i>And every day he seemed to get worse.</i>
583	00:34:19:05	00:34:21:05	02:00	Food allergy is a condition in which there's a change
584	00:34:21:08	00:34:22:16	01:08	Talal Chatila, MD - IMMUNOLOGIST HARVARD MEDICAL SCHOOL
585	00:34:22:18	00:34:26:11	03:17	in the immune system in the gut, and also a change in the microbiome.
586	00:34:27:15	00:34:30:08	02:17	<i>My lab has shown that children with food allergy</i>
587	00:34:30:12	00:34:34:20	04:08	<i>have bacterial microbes that are different from those</i>

				<i>of healthy children.</i>
588	00:34:35:11	00:34:40:22	05:11	<i>We found that one bacterium in particular, called <i>Subdoligranulum variabile</i>,</i>
589	00:34:41:05	00:34:45:20	04:15	<i>was either severely depleted, or missing in children with food allergies.</i>
590	00:34:46:05	00:34:49:07	03:02	<i>And that this bacterium protects against food allergy.</i>
591	00:34:51:18	00:34:56:04	04:10	<i>So in mice, treatment with this bacterium cures food allergy.</i>
592	00:35:00:05	00:35:05:03	04:22	<i>We should be able to translate these results to therapies for people with food allergy.</i>
593	00:35:07:06	00:35:08:21	01:15	<i>Can this happen in the next decade?</i>
594	00:35:09:07	00:35:10:07	01:00	Absolutely.
595	00:35:11:02	00:35:12:04	01:02	Here you go, bud.
596	00:35:12:11	00:35:13:22	01:11	Okay. Thank you.
597	00:35:15:10	00:35:18:12	03:02	<i>Right now, the magnitude of the problem is so huge</i>
598	00:35:18:19	00:35:22:19	04:00	<i>that we have to investigate alternative approaches to therapy,</i>
599	00:35:23:11	00:35:28:08	04:21	such as giving small amounts of the allergic foods, to build up tolerance.

608	00:35:53:11	00:35:56:00	02:13	Any environmental stuff this week, maybe?
609	00:35:56:06	00:35:58:10	02:04	He just needs a couple of times, mostly just sniffy.
610	00:35:58:13	00:36:00:01	01:12	THIERINGER: Okay.

615	00:36:12:22	00:36:16:03	03:05	And I leave it on there for two minutes, and all is well.
616	00:36:16:05	00:36:18:19	02:14	The next time they come in, I put it on the middle of their lip,
617	00:36:19:15	00:36:20:16	01:01	and then they will lick it.

618	00:36:21:02	00:36:23:06	02:04	<i>And they do it at home every day.</i>
619	00:36:23:12	00:36:26:07	02:19	<i>And they increase the amount very slowly.</i>
620	00:36:29:11	00:36:31:18	02:07	LIBBY: We're going to do three tabs of the cashews.
621	00:36:32:22	00:36:39:06	06:08	They are so anxious about these foods that they go into this heightened state

623	00:36:42:02	00:36:46:12	04:10	So we give them tools to help calm that anxiety response.

627	00:36:55:02	00:36:56:13	01:11	Oh, yeah.

635	00:37:24:07	00:37:28:20	04:13	But, I mean, just to... to see where he started and where he is right now.
636	00:37:29:01	00:37:32:07	03:06	What was it? Five months ago, you had cashews and we ended up in the hospital.

638	00:37:34:16	00:37:35:18	01:02	He's had three cashews.

652	00:38:22:12	00:38:24:13	02:01	(GLORIA HUMMING)
653	00:38:26:18	00:38:30:11	03:17	I grew up with her in in the lab. When I was little,
654	00:38:30:13	00:38:33:23	03:10	I used to play with her leftover dolphin stomachs
655	00:38:35:01	00:38:36:15	01:14	and pretend I was a scientist.
656	00:38:37:13	00:38:40:01	02:12	(SINGING IN FOREIGN LANGUAGE)
657	00:38:42:14	00:38:46:04	03:14	ADRIANA: <i>I still get allergies to dust...</i> GLORIA: <i>Mmm-hmm.</i>
658	00:38:46:09	00:38:48:00	01:15	ADRIANA: <i>...and, uh, season changes.</i>
659	00:38:49:21	00:38:51:21	02:00	And you had reflux.  And I had reflux.
660	00:38:52:15	00:38:53:15	01:00	Pretty bad one.
661	00:38:54:06	00:38:55:20	01:14	(PLAYING UPBEAT TUNE)
662	00:38:56:10	00:39:00:15	04:05	GLORIA: <i>My daughter was born by C-section, and C-section are very useful.</i>
663	00:39:01:07	00:39:02:09	01:02	<i>They save lives.</i>
664	00:39:03:07	00:39:07:20	04:13	In the U. S., about a third of the babies are born

				by C-section.
665	00:39:08:06	00:39:12:07	04:01	But we know in many cases they are not medically indicated.
666	00:39:14:12	00:39:17:18	03:06	<i>There is a difference between babies born vaginally</i>
667	00:39:18:02	00:39:19:23	01:21	<i>and babies born by C-section.</i>
668	00:39:20:20	00:39:23:14	02:18	<i>C-section babies have higher rates of asthma,</i>
669	00:39:23:21	00:39:28:01	04:04	<i>allergies, diabetes, obesity, and many other illnesses.</i>
670	00:39:28:17	00:39:29:21	01:04	<i>The question is why.</i>
671	00:39:34:00	00:39:36:16	02:16	<i>The womb is mostly free of microbes.</i>
672	00:39:37:11	00:39:39:16	02:05	<i>So when the babies are born vaginally,</i>
673	00:39:40:09	00:39:43:01	02:16	<i>they first get covered with the mothers microbes</i>
674	00:39:43:12	00:39:45:12	02:00	<i>as they move down the birth canal.</i>
675	00:39:46:15	00:39:50:11	03:20	<i>These bugs become the starter of their own microbiome.</i>
676	00:39:52:08	00:39:54:05	01:21	<i>But babies born by C-section</i>
677	00:39:54:19	00:39:57:14	02:19	<i>only get their first microbes from the operating room.</i>
678	00:39:57:23	00:39:59:14	01:15	(BABY CRYING)  <b><i>CS not available //</i></b> <b><i>Gloria AKA Maria Gloria Dominguez Bello, ok verified from End credits</i></b>
679	00:39:59:16	00:40:03:08	03:16	<i>My hypothesis is that this puts them</i>

680	00:40:03:10	00:40:05:19	02:09	<i>at a disadvantage from day one.</i>
681	00:40:06:09	00:40:08:09	02:00	(GLORIA SINGING IN SPANISH TO ADRIANNA)  <b><i>Adrianna, Gloria's daughter, ok verified, OS at 00:38:03:16</i></b>

683	00:40:18:04	00:40:21:00	02:20	(SINGING IN SPANISH)
684	00:40:25:16	00:40:26:16	01:00	ADRIANA: <i>Correct me if I'm wrong,</i>
685	00:40:26:18	00:40:29:22	03:04	but you started delving into this field,
686	00:40:30:00	00:40:34:03	04:03	and then there was this moment of looking back and saying,
687	00:40:34:10	00:40:37:06	02:20	"What if I didn't need that C-section?"  <b><i>C-section = cesarean section, ok verified, <a href="https://www.webmd.com/baby/what-happens-during-c-section">https://www.webmd.com/baby/what-happens-during-c-section</a></i></b>
688	00:40:37:08	00:40:41:13	04:05	You know I was a victim of, you know,
689	00:40:41:15	00:40:44:03	02:12	the persuasion by the doctor
690	00:40:44:05	00:40:47:20	03:15	that I was too narrow, that the baby's head was big.
691	00:40:47:22	00:40:51:16	03:18	And, you know, in the end she wasn't big. She was normal.
692	00:40:51:18	00:40:54:02	02:08	Her head was normal and I'm not narrow.
693	00:40:54:04	00:40:56:04	02:00	(SINGING TOGETHER)
694	00:40:59:13	00:41:04:10	04:21	And then I found out that, you know, in my hospital,

695	00:41:04:13	00:41:08:01	03:12	uh, 50% of the women had C-sections.
696	00:41:08:05	00:41:10:05	02:00	(SINGING TOGETHER)
697	00:41:15:22	00:41:18:01	02:03	GLORIA: <i>I mean, they simply don't know</i>
698	00:41:18:03	00:41:21:14	03:11	<i>that the kids born by C-section are not the same.</i>
699	00:41:21:16	00:41:23:08	01:16	I think this guy...  (SNEEZES)
700	00:41:23:10	00:41:25:02	01:16	...truly-- Bless you.  Allergies.

705	00:41:35:14	00:41:37:13	01:23	GLORIA: <i>An important question is,</i>
706	00:41:37:15	00:41:40:00	02:09	<i>can we restore the microbial diversity</i>
707	00:41:40:02	00:41:42:13	02:11	<i>that is lost in C-section births?</i>
708	00:41:42:15	00:41:45:11	02:20	<i>And if so, will that lower the risks</i>
709	00:41:45:13	00:41:47:12	01:23	<i>of these chronic diseases?</i>
710	00:41:48:12	00:41:51:04	02:16	NYU LANGONE HOSPITAL

711	00:41:51:12	00:41:53:16	02:04	Nice to see you again.
712	00:41:53:18	00:41:54:23	01:05	So, ready?
713	00:41:55:01	00:41:56:10	01:09	Yes.  GLORIA: Great.
714	00:41:56:12	00:41:59:21	03:09	GLORIA: <i>We began a study of C-sections</i>
715	00:41:59:23	00:42:04:06	04:07	<i>where we cover babies with their mom's vaginal fluid.</i>
716	00:42:04:08	00:42:06:10	02:02	(MACHINE HUMMING)
717	00:42:07:03	00:42:09:00	01:21	<i>An hour before the operation,</i>
718	00:42:09:02	00:42:12:21	03:19	<i>we fold a sterile gauze like a tampon,</i>
719	00:42:12:23	00:42:15:06	02:07	<i>and insert it in the vaginal canal.</i>
720	00:42:15:08	00:42:17:01	01:17	GLORIA: This ain't a tampon.
721	00:42:19:13	00:42:22:10	02:21	You have the gauze? The gauze is the most important.
722	00:42:23:05	00:42:24:05	01:00	What gauze?
723	00:42:24:07	00:42:26:02	01:19	Yeah, this is... Here is the gauze.
724	00:42:27:06	00:42:30:09	03:03	(UPBEAT MUSIC PLAYING)
725	00:42:30:11	00:42:32:16	02:05	(SPEAKING INDISTINCTLY)

727	00:42:35:15	00:42:38:08	02:17	So the gauze is first, then we will examine.
728	00:42:38:10	00:42:39:22	01:12	Then swab a little more.

729	00:42:51:02	00:42:53:01	01:23	(SPEAKING INDISTINCTLY)
730	00:42:58:00	00:42:59:00	01:00	MAN: It's a girl.

732	00:43:07:02	00:43:10:15	03:13	GLORIA: <i>Later, when we examined their poop,</i>
733	00:43:10:17	00:43:13:14	02:21	<i>we found that their microbiomes looked more like</i>
734	00:43:13:16	00:43:16:06	02:14	<i>in those babies born vaginally.</i>
735	00:43:17:11	00:43:19:04	01:17	(INDISTINCT CHATTER)
736	00:43:22:10	00:43:23:10	01:00	Okay, Mommy.
737	00:43:24:02	00:43:25:23	01:21	You made such a beautiful baby.
738	00:43:26:01	00:43:27:04	01:03	(MAN CHUCKLING)
739	00:43:28:14	00:43:30:10	01:20	Bye! I hope you got everything you needed.
740	00:43:30:12	00:43:31:17	01:05	I hope it all went well.
741	00:43:31:19	00:43:33:09	01:14	GLORIA: Perfect. Thank you so much.
742	00:43:33:11	00:43:34:18	01:07	NURSE: Good. Have a great day.
743	00:43:34:20	00:43:35:20	01:00	GLORIA: Thank you.
744	00:43:41:09	00:43:45:00	03:15	GLORIA: <i>There are many ways to boost good microbes in babies,</i>
745	00:43:45:02	00:43:49:02	04:00	<i>but the most important one is breastfeeding.</i>
746	00:43:49:04	00:43:52:02	02:22	<i>No matter how they are born, it's associated with</i>

747	00:43:52:04	00:43:55:07	03:03	<i>a decrease in those diseases.</i>  (BABY GURGLING)
748	00:43:58:17	00:44:02:18	04:01	<i>Swabbing can help restore C-section babies' microbes.</i>
749	00:44:02:20	00:44:05:01	02:05	(MAKING PLAYFUL NOISES)
750	00:44:05:03	00:44:09:23	04:20	<i>But right now it's not safe outside clinical trials,</i>
751	00:44:10:01	00:44:12:17	02:16	<i>so it's going to take years before we know</i>
752	00:44:12:19	00:44:15:00	02:05	<i>if it reduces disease rates.</i>
753	00:44:15:06	00:44:18:06	03:00	<i>And by then, we may already have better ways</i>
754	00:44:18:08	00:44:19:19	01:11	<i>to restore microbiomes.</i>
755	00:44:19:21	00:44:22:05	02:08	(COOING)

759	00:44:38:22	00:44:42:16	03:18	My doctor called and said, "Wow, a colleague of mine
760	00:44:42:18	00:44:45:20	03:02	"is doing this clinical trial in Boston at Mass General
761	00:44:45:22	00:44:50:03	04:05	"and they're doing FMTs, but they're doing this to see
762	00:44:50:05	00:44:52:21	02:16	"if there's a correlation between the gut flora
763	00:44:52:23	00:44:56:03	03:04	"and obesity, and how it affects the whole system."

765	00:44:57:12	00:44:58:19	01:07	All right. What do you think?  <i>Libby, ok verified from end credits.</i>

769	00:45:09:13	00:45:11:02	01:13	So, 199.
770	00:45:11:04	00:45:12:16	01:12	Any fevers at all?  THERESA: No.

778	00:45:32:23	00:45:34:08	01:09	can potentially change
779	00:45:34:10	00:45:38:08	03:22	their body weight and also their metabolism.
780	00:45:38:21	00:45:40:11	01:14	Okay, so you ready?  THERESA: I'm ready.
781	00:45:40:13	00:45:43:01	02:12	All right. I'm just going to warm them up a little bit.
782	00:45:43:03	00:45:44:06	01:03	And...  Uh-huh.
783	00:45:44:08	00:45:47:12	03:04	Each one with a big... big gulp of water.
784	00:45:47:14	00:45:50:01	02:11	<i>YU: The participant will be receiving capsules</i>
785	00:45:50:03	00:45:52:01	01:22	<i>that are created with donor material.</i>
786	00:45:52:03	00:45:53:14	01:11	Stool samples, essentially,
787	00:45:53:16	00:45:56:03	02:11	from lean, metabolically healthy donors.
788	00:45:57:00	00:46:00:10	03:10	<i>Whenever you propose giving someone a capsule</i>
789	00:46:00:12	00:46:02:15	02:03	which contains stool material.
790	00:46:02:17	00:46:04:14	01:21	There could be potentially a yuck factor
791	00:46:04:16	00:46:06:16	02:00	associated with that and some hesitation.
792	00:46:07:07	00:46:09:06	01:23	HOHMANN: Oh, you're doing two at a time, wow. THERESA: Yeah.

793	00:46:10:23	00:46:13:10	02:11	THERESA: <i>Fifteen pills is a lot of pills.</i> (CHUCKLES) HOHMANN: Yeah.
794	00:46:13:12	00:46:15:14	02:02	So if I can do two at a time, I will.
795	00:46:15:17	00:46:17:02	01:09	I told my husband, I said, "Honey,
796	00:46:17:04	00:46:18:23	01:19	"you can actually see it's brown.
797	00:46:19:01	00:46:22:02	03:01	(CHUCKLING) "It's like you're literally swallowing shit."
798	00:46:22:04	00:46:25:01	02:21	(CHUCKLES)  HOHMANN: <i>I've heard every poop joke there is.</i>
799	00:46:25:12	00:46:28:00	02:12	<i>Crapsules is the most common one.</i>
800	00:46:28:02	00:46:29:22	01:20	<i>It just sort of rolls off the tongue.</i>
801	00:46:30:12	00:46:33:00	02:12	The trial is designed so that 12 subjects
802	00:46:33:02	00:46:35:09	02:07	will be receiving the active capsules,
803	00:46:35:11	00:46:37:04	01:17	and the other 12 will be receiving
804	00:46:37:06	00:46:40:07	03:01	a placebo capsule with an inert substance.
805	00:46:40:09	00:46:41:11	01:02	(LID POPS)
806	00:46:42:16	00:46:44:16	02:00	HOHMANN: <i>Our goal was to make the placebo pills</i>
807	00:46:44:18	00:46:48:03	03:09	look as close to the real capsules as possible.
808	00:46:48:19	00:46:52:19	04:00	<i>And we ended up finding that just regular old cocoa powder</i>

809	00:46:52:21	00:46:55:23	03:02	<i>with some gelatin added was the best.</i>
810	00:46:58:18	00:46:59:21	01:03	<i>They're very good placebos.</i>
811	00:46:59:23	00:47:02:12	02:13	Honestly, I cannot tell the difference.
812	00:47:02:14	00:47:03:14	01:00	(BABY EXCLAIMS)
813	00:47:03:16	00:47:07:16	04:00	(CHUCKLING) I love you. Mommy missed you today.
814	00:47:08:19	00:47:11:03	02:08	THERESA: <i>I am very productive and very busy.</i>
815	00:47:11:05	00:47:16:10	05:05	<i>So the weight affects that, too, because I'm doing 12 hour shifts</i>
816	00:47:16:12	00:47:21:13	05:01	<i>on my feet as a nurse, I feel it on my feet, my calves,</i>
817	00:47:22:17	00:47:26:17	04:00	chub rub, (CHUCKLES) you know, the thighs rub.
818	00:47:30:01	00:47:33:11	03:10	<i>This clinical trial is something that could be so huge</i>
819	00:47:33:13	00:47:36:02	02:13	<i>for so many people, not just obesity.</i>
820	00:47:36:04	00:47:40:00	03:20	<i>You know, people with Crohn's, colitis, diabetes,</i>
821	00:47:40:02	00:47:42:11	02:09	<i>and high blood pressure and cholesterol.</i>

843	00:48:49:02	00:48:53:16	04:14	Drug resistant diseases claim the lives of around 700,000 people each year.
844	00:48:53:18	00:48:57:21	04:03	Now that's expected to leap to 10 million by 2050.

987	00:55:54:05	00:55:56:15	02:10	It has to be forming in early life.
988	00:55:56:17	00:56:00:05	03:12	And it's... The rate of autism has gone up tremendously.
989	00:56:00:09	00:56:02:04	01:19	Autism rates continue to climb, and experts don't exactly know

998	00:56:21:15	00:56:24:10	02:19	<i>especially as driven by microbes.</i>
999	00:56:24:12	00:56:27:04	02:16	<i>For example, gut microbes affect cells</i>

1001	00:56:31:02	00:56:33:03	02:01	<i>And that's involved in brain development</i>

1015	00:57:21:02	00:57:24:23	03:21	So I had to take penicillin for about two weeks.
1016	00:57:26:11	00:57:31:06	04:19	And then I got a C-section at 34 weeks.

1020	00:57:40:12	00:57:42:18	02:06	I had regrets.
1021	00:57:46:08	00:57:50:02	03:18	So as a doctor, I felt I must do something.
1022	00:57:55:15	00:57:57:05	01:14	In the spring of 2015,
1023	00:57:57:09	00:58:01:19	04:10	my son received his first fecal microbiota transplant.
1024	00:58:05:14	00:58:08:06	02:16	A few hours after the procedure,
1025	00:58:08:08	00:58:10:09	02:01	he showed obvious improvements.
1026	00:58:11:11	00:58:16:06	04:19	That's when I decided to focus my research on gut microbes.
1027	00:58:17:20	00:58:21:03	03:07	Actually, even in the olden days,
1028	00:58:21:06	00:58:22:20	01:14	we had doctors who used similar methods.
1029	00:58:22:22	00:58:25:00	02:02	For example, Yellow Dragon Soup
1030	00:58:25:02	00:58:29:02	04:00	was a mixture of fecal bacteria and urine.
1031	00:58:29:04	00:58:33:01	03:21	It was used to treat diarrhea.

1080	01:02:04:00	01:02:10:14	06:14	She thought that his symptoms could be related to his gut microbes.
1081	01:02:11:01	01:02:14:04	03:03	She suggested we begin dietary treatment.

1145	01:07:12:22	01:07:15:07	02:09	Well, I'll just cut to the chase for ya.
1146	01:07:15:10	01:07:16:22	01:12	Mm-hmm.  You know, I guess I'm
1147	01:07:17:04	01:07:19:16	02:12	sad to tell you that you did get placebo.
1148	01:07:21:01	01:07:25:23	04:22	Um, as you know it was a 50-50 chance and, uh,
1149	01:07:26:16	01:07:31:21	05:05	I was actually hopeful that you'd gotten the real thing, so to speak.
1150	01:07:32:07	01:07:34:18	02:11	Oh, man, that's definitely not the case.
1151	01:07:35:22	01:07:38:13	02:15	That was just still (CLEARS THROAT) a lot of time,
1152	01:07:38:19	01:07:41:00	02:05	(BREATH TREMBLING) a lot of work, a lot of driving.
1153	01:07:41:19	01:07:43:22	02:03	A lot of... you know,
1154	01:07:44:06	01:07:46:22	02:16	lifestyle changes, because me and my husband did wanna start
1155	01:07:47:04	01:07:49:17	02:13	to have another baby, so we put that on hold.
1156	01:07:50:23	01:07:53:11	02:12	To do this... (CLEARS THROAT) um...
1157	01:07:54:07	01:07:57:14	03:07	And obviously, I couldn't diet during it, so it just kinda...

1158	01:07:58:02	01:08:00:11	02:09	backs everything up. (SNIFFLES)
1159	01:08:02:00	01:08:04:04	02:04	(SOMBER INSTRUMENTAL MUSIC PLAYING)
1160	01:08:09:17	01:08:11:10	01:17	I think we all have
1161	01:08:11:16	01:08:13:18	02:02	optimistic view points about this...
1162	01:08:13:22	01:08:16:18	02:20	this kind of thing, or we wouldn't be doing it.
1163	01:08:17:15	01:08:20:19	03:04	<i>It's gonna be helpful for science</i>
1164	01:08:20:21	01:08:24:14	03:17	<i>to advance our knowledge of the microbiome and how it affects people.</i>
1165	01:08:26:05	01:08:27:13	01:08	Stay in touch.  I will.
1166	01:08:27:18	01:08:28:22	01:04	Thank you.  HOHMANN: <i>On the other hand,</i>
1167	01:08:29:01	01:08:31:21	02:20	it's not fun telling somebody they got a placebo,
1168	01:08:32:00	01:08:34:04	02:04	when they were hoping to get the active therapy
1169	01:08:34:07	01:08:36:17	02:10	in a... in a project like this.

1174	01:09:00:22	01:09:04:05	03:07	Usually, there is a series of failures before you can actually get to success.
1175	01:09:04:07	01:09:05:15	01:08	<i>But the important point</i>
1176	01:09:05:20	01:09:09:16	03:20	<i>is to learn as much as you can from the failures.</i>
1177	01:09:09:19	01:09:12:05	02:10	<i>Try and figure out, "Well, why did we fail?"</i>

1179	01:09:13:19	01:09:16:21	03:02	<i>There's still a lot of important information you can glean from this</i>
1180	01:09:17:00	01:09:20:17	03:17	<i>to design the next study to be better and more targeted.</i>

1183	01:09:25:04	01:09:26:14	01:10	I know, that's why there's...
1184	01:09:26:17	01:09:28:08	01:15	LIBBY: Cam, what's so good about today?

1187	01:09:33:20	01:09:35:21	02:01	because I've never exactly had it before.
1188	01:09:35:23	01:09:38:01	02:02	And I've never really had the opportunity.
1189	01:09:38:03	01:09:39:08	01:05	So, yeah, I'm pretty excited.
1190	01:09:39:11	01:09:40:18	01:07	LIBBY: Awesome. How long have you been

1192	01:09:42:10	01:09:44:09	01:23	Um, my whole life, probably, yeah.
1193	01:09:50:10	01:09:51:23	01:13	It's... It's pretty good.
1194	01:09:52:23	01:09:54:02	01:03	BRIAN: High-five!
1195	01:09:56:17	01:09:58:14	01:21	(GIGGLING) Sorry.

1236	01:12:04:14	01:12:05:15	01:01	Play with me.

1237	01:12:07:08	01:12:08:12	01:04	We've done FMT six times,

1241	01:12:15:19	01:12:19:21	04:02	Compared to before, Ningning talks more.
1242	01:12:19:23	01:12:22:15	02:16	And he's able to express what he wants.
1243	01:12:25:08	01:12:28:07	02:23	His vocabulary is much richer.
1244	01:12:31:02	01:12:33:01	01:23	Repeat after me, here we go.
1245	01:12:36:19	01:12:38:15	01:20	(CONTINUES IN MANDARIN)
1246	01:12:41:12	01:12:45:00	03:12	His teachers evaluate the students

1248	01:12:48:20	01:12:51:11	02:15	And Ningning was the student
1249	01:12:51:13	01:12:54:14	03:01	who has made the most progress.
1250	01:12:55:22	01:12:58:01	02:03	And the fastest progress.
1251	01:12:58:21	01:13:01:03	02:06	You can ask Mumu yourself.
1252	01:13:01:19	01:13:03:19	02:00	Can I kiss you, Mumu?
1253	01:13:04:07	01:13:06:00	01:17	-May I. -May I?
1254	01:13:07:12	01:13:08:19	01:07	May Ningning kiss you?
1255	01:13:09:12	01:13:10:14	01:02	Yes.
1256	01:13:12:04	01:13:13:06	01:02	What about the other cheek?

1257	01:13:15:05	01:13:18:08	03:03	Now you can say, "We are good friends."
1258	01:13:20:23	01:13:23:01	02:02	As his abilities increase,
1259	01:13:23:04	01:13:24:15	01:11	he will be able to swallow pills.
1260	01:13:24:21	01:13:27:01	02:04	Then he can take FMT capsules.
