# WHITE WITH FEAR

## Logline

Told by the operatives in the rooms where it happened, **White With Fear** is an explosive deep dive into the decades-long quest by America's conservative political machine to amass power by exploiting racial fault lines and stoking narratives of White victimization.

## Synopsis

Emmy Award-winning director Andrew Goldberg's *White With Fear* sheds light on the decades-long strategy of politicians and media outlets to amplify racial divisions and white victimization narratives for power and profit.

Described by critics as “riveting,” “masterful” and “absolutely required viewing,” and in the tradition of past classic documentary exposes such as *Enron: The Smartest Guys in the Room* and *Inside Job*, *White With Fear* uncovers the real-world consequences of manipulative tactics that seek to demonize immigrants, spread Islamophobia, and deploy a cynical and strategic campaign of racist rhetoric with real world effects. *White With Fear* is a potent journalistic undertaking that unearths the hidden political playbook and key operatives behind these efforts.

With revealing first-person access to figures like **Hillary Clinton**, **Steve Bannon**, **Rep. Jamie Raskin**, former Fox News reporter **Carl Cameron**, The Lincoln Project co-founder **Stuart Stevens**, and other leading experts, *White With Fear* offers an urgent and eye-opening look at how racial bigotry is weaponized to undermine democracy.

## Critical response

“America’s racial divide didn’t just happen – it was planned. And *White With Fear* explains, in riveting detail, where the idea came from, and whose interests it serves.”

- Stephen Whitty, *NJArts*

“Shows how stereotypes are weaponized.” - *US Weekly*

“*White With Fear* is absolutely required viewing.” - Bradley Gibson, *Film Threat*

“White With Fear is a timely and provocative documentary about how conservative politicians use racial fear-mongering to increase the racial divide and to scare white voters for their own political benefit.” - Avi Offer, *NYC Movie Guru*
